## **Computer IT Support Services Enhanced for Business by pcmacnerds in Bergen County**

*With the recent staff additions, pcmacnerds of Bergen county, NJ is now offering a full spectrum of IT services to businesses that not only includes computer maintenance and servicing, but also a full scale of web applications.*

Elmwood Park, NJ, May 15, 2012 --([Public Relations Story by pr](#))-- pcmacnerds has been providing IT services to residential and business customers since the early 90's. Its unique approach of treating all its customers as VIP members has made them a unique and award winning provider.

It also doesn't hurt having support and partners like Microsoft, a leader in application development and the developer of windows, an operating system that is widely used around the world. Dell Inc, a worldwide innovative computer manufacturer and widely recognized, and Eset, an IT security company that develops antivirus, antispyware and firewall solutions for windows and mac based systems.

“Although having support and partnerships of this nature is great, our business model is not always agreeable,” Greg Pantirmas, Founder & CEO of PCMACNERDS states, "Nevertheless we will continue to provide world class technology services to all our customers. A model that has made them widely recognized and provided them with many awards in the IT field.”

Technology Services made easy by [pcmacnerds](#) whether you're across the street in the next town or even in another country.
